

We are excited and proud to announce that the **Digital iTaLAM for Kita Bet & Kita Gimmel** will be available for implementation in the 2017-2018 school year.

iTaLAM builds on the strengths and success of the TaL AM curriculum to provide an internet-based curriculum that both challenges and engages the digital generation.

It blends the print-based TaL AM with interactive games, songs, digital interactive books, and fun activities that create personalized, interactive, and multisensory holistic learning experience.

iTaLAM Packages

For the 2017-2018 school year, the following digital and workbook components of Grade 2 & 3 will be available for purchase: [iTaLAM Packages](#)

Learning Management System

Teachers can monitor student progress both in class and at home, as well as to evaluate, report, differentiate, and individualize learning. This is enabled through iTaLAM's sophisticated, yet user-friendly **L**earning **M**anagement **S**ystem ([LMS](#)).

Testimonials

We are confident that iTaLAM, a state of the art curriculum, will succeed in providing your teachers and students with the best possible learning experience. iTaLAM was taught in 90 schools globally during the 2016-2017 school year. We invite you to browse through a small sample of the [schools' testimonials](#).

Prerequisites for Implementation:

Technical Compatibility

To ascertain effective implementation of iTaLAM, we will need to check that your school's digital infrastructure is adequately equipped to support the digital content.

Please see the system and hardware [specifications](#).

Professional Development

For successful implementation of iTaLAM in your school, teachers will participate in two comprehensive [professional development institutes](#) and 8-10 online teacher training sessions.

The institutes, one before the start of the school year and the second in mid school year, will focus on effective implementation of the iTaLAM blended curriculum and on how to use the multifaceted capabilities of its LMS.
